

**WORKING
FUTURES**

Working Futures Programme Halton

Working Futures is about supporting young people, aged 16 to 29 who are not currently in employment, education or training (NEET) to take control of their own lives and move towards a better future.

We can help participants to increase confidence and self-esteem, achieve qualifications, develop employability skills, improve their English and Maths, undertake work related activities and, most importantly, progress and succeed in learning or work.

Everyone enrolling on to the programme is assessed to identify the help that they require. Once the programme is complete participants are supported to move on to employment, self-employment, apprenticeships, Further Education, training or volunteering.
