Halton Community Specialist Learning Disabilities Team

We can work with you, your family or carers

Psychologists can help you to talk about your feelings. They can work with you on your own, in a group, or with you and your family/carers.

Occupational therapists can help you to be more independent in your daily life. They can help you to develop your skills and access equipment that you need to do this.

Physiotherapists can help you with your mobility and give you advice on equipment that can help you .

The Community Matron can help you, your family and carers. The Community Matron works with people who have complex health problems to provide support, information and advice.

Speech and Language Therapists can help you with your communication. They can also help you if you are having problems with your eating and drinking.

The Doctor works closely with you, your carers and other professionals. The doctor can help you with your physical and mental health and well being.
