

## SEND Information Report 2018-19

This Special Educational Needs and/or Disability (SEND) Information Report has been compiled using the information required as set out in the Special Educational Needs and/or Disability Code of Practice and Regulations 2014. **SEND Broad Areas of Need** (Appendix A of this information report provides more information).

The SEND Code of Practice: 0-25 years, details these as:

- |   |                                  |
|---|----------------------------------|
| 1. Communication and Interaction                    | 2. Cognition and Learning        |
| 3. Social, Emotional and Mental Health difficulties | 4. Sensory and/or Physical Needs |

General School Details:		
School Name:	Bridgewater Park Primary School	
School website address:	<a href="http://www.bridgewaterparkprimary.org.uk">www.bridgewaterparkprimary.org.uk</a>	
Type of school:	Primary	
Description of school:	Bridgewater Park Primary School is an inclusive, mainstream primary school offering places for children between the ages of 3 and 11. The school is an academy operating within The Heath Multi Academy Trust.	
Does our school have resource base? Yes or No  If Yes please provide a brief description.	No	
Number on roll:	122	
% of children at the school with SEND:	17%	
Date of last Ofsted:	8-9 <sup>th</sup> November 2016 (Good)	
Awards that the school holds:	Investors in People – Accredited Artsmark	
Accessibility information about the school:	Wheelchair access, disabled toilet.	
Please provide a web link to your school's Accessibility Strategy	<a href="http://bridgewaterpark.halton.sch.uk/Pages/Online-Office.aspx">http://bridgewaterpark.halton.sch.uk/Pages/Online-Office.aspx</a>	
Expertise and training of school based staff about SEND. (CPD details) Please comment	We are committed to developing the ongoing expertise of our staff. We have current expertise in our school:	
	Initials of person	Area of expertise
	MB (HLTA)	Read, Write, Inc. Tutoring
	Level	Specialist

specifically in relation to autism and include dates.	CB, SL, GH	Speech, language and communication needs: Makaton training 2 day course	Enhanced	
	CB	Specialist teaching assistant for Communication and Interaction	Enhanced	
	MB (HLTA), CB, CH	Cognition and Learning attendance at a range of CPD including: First Class @ Number	Enhanced	
<p>Staff are trained in Quality First Teaching strategies to support children with specific learning difficulties, writing person centred SEN support plans in line with changes to the SEN Code of Practice. Support plans are supported by provision maps to oversee all interventions and track progress. These are updated termly unless required sooner.</p> <p>In addition to this, some staff have been trained in Numicon which provides a whole school multi-sensory approach to support children develop their mathematics skills. All KS1 and KS2 teachers have been trained in the principals of Singapore Maths which uses the concrete, visual, abstract methods of teaching.</p> <p>Bridgewater Park is committed to raising staff expertise in the area of SEN and disability and seeks to provide a comprehensive training programme for all staff so that they are equipped to meet the needs of all children they teach.</p>				
Documentation available:	Are the following documents available on the schools website?		SEND Policy	yes
	If yes please insert the link to the documents page. <a href="http://bridgewaterpark.halton.sch.uk/Pages/Online-Office.aspx">http://bridgewaterpark.halton.sch.uk/Pages/Online-Office.aspx</a>		Safeguarding Policy	yes
			Behaviour Policy	yes
			Equality and Diversity	Yes
			Pupil Premium Information	yes
			Complaints procedure	yes

<b>Range of Provision and inclusion information:</b>	
How we identify special educational learning needs as a school and how we seek the views, opinions and voice of pupils and their parents in planning to meet them.	At Bridgewater Park Primary we believe in early identification of special educational needs. Every child's attainment will be assessed on entry to school so that the foundations during the child's pre-school years can be built on. If a child has already been identified as having a special educational need in their early years setting, then

	<p>the class teacher and SENCO will use this information to inform planning and support (See SEN Policy, 2017)</p> <p>Children may be identified by the following:</p> <ul style="list-style-type: none"> <li>• A child who is working below age related expectations despite receiving quality first teaching and appropriate rigorous intervention.</li> <li>• Concerns raised by a teacher and shared with the SENCO</li> <li>• Consultation between class teachers and the leadership team during pupil progress meeting</li> <li>• Following an assessment completed by a specialist outside agency for example, Education and Child Psychology Service</li> </ul> <p>Parental requests for further assessment and investigation which leads to class teachers and the Assistant Principal identifying a SEN.</p>
<p>What extra support we bring in to help us meet SEND: specialist services, external expertise and how we work together. For example health, social care, local authority support services and voluntary sector organisations.</p>	<p>A full list of our external partners who we work with can be found in our contribution to the Local Offer. Extending our school approach, we commission using an outcomes-based approach. This enables us to hold our partners and ourselves to account.</p> <p>Our academic assessment for children and young people with special educational needs is moderated through our cluster of schools and neighbouring partners.</p> <p>Our approach involved: providing additional visits for children entering school to nursery, planned transition visits and home visits for children new to the school. For children moving to secondary we support children too by liaising with their new tutors and passing on all information both academic and pastoral. Children have the opportunity for extra transition days.</p> <p>Bridgewater Park Primary Academy is part of The Heath Multi Academy Trust and has close links with schools within the academy. This includes attendance at events hosted by The Heath, specialist teaching for dance and French and attendance for staff at training events.</p> <p>We closely monitor children’s destination data and ensure that the receiving school has all of the information they require to support the child in their new setting.</p>

	<p>Bridgewater Park Primary works closely with outside agencies and the Local Authority to ensure a coordinated approach in supporting children at the school. We aim to refer a child to services early.</p> <p>We work closely with health and education services including: Education and Child Psychology Service, Local Authority Specialist Teachers, Chatterbug Speech and Language Therapy Service, Woodview Child Development Centre, Paediatrics, Occupation and Physiotherapy Service, Attendance and Behaviour Service, Positive Behaviour Service, IWST and Social Care to ensure a coordinated and multi-agency approach to supporting children with SEN and additional needs.</p>
<p>How we provide access to a supportive environment; ICT facilities/equipment/resources/facilities etc.</p>	<p>The school has an Accessibility Plan details how we aim to make our building more accessible for children and visitors with physical disabilities. The school is mainly on one floor but there are steps up to the reception classroom and down to the key stage 2 classes however, every classroom can be accessed at ground floor level. There is wheelchair access and a disabled toilet.</p> <p>The school uses a range of approaches such as:-</p> <ul style="list-style-type: none"> <li>• specialist equipment to support the curriculum</li> <li>• individual workspaces</li> <li>• access to ICT resources e.g. IPADs and desktop computers.</li> <li>• prompt and reminder cards for organisation</li> <li>• symbols and visual prompts</li> </ul>
<p>What strategies/programmes/resources are used to support pupils with autism and social communication difficulties?</p>	<p>All children in nursery and reception are assessed on entry using the WellComm Screening Toolkit. This enables us to assess where children have gaps in their speech and language skills. This screening also helps to inform any referrals to speech and language therapy service. Appropriate interventions are then planned in as part of whole class teaching and for individual and small group support. In addition to this, we provide small group Talk Time to help develop social skills and support children to develop their communication skills with their peers.</p> <p>The use of Makaton signing is used as a communication tool to support children understand what is asked of them and to help children communicate with their peers and other adults.</p>

	<p>Children with Autism Spectrum Disorder or social communication difficulties may receive a tailored curriculum delivered in class.</p> <p>Children with ADHD may have personalised behaviour plans drawn up in line with the whole school behaviour policy in order to meet their individual needs.</p> <p>Every classroom has a visual timetable for all students to view and transition booklets are created for moving classes, resedentials and school trips.</p>
<p>What strategies/programmes/resources are available to speech and language difficulties?</p>	<p>Children who have been assessed by speech and language therapy service have a care plan and will receive regular, designated time with the specialist teaching assistant for Communication and Interaction.</p> <p>In Key Stage 1 we offer Time for Talk programme to develop social and communication skills. For individual children, we may provide visual supports to aid their communication and understanding skills, for example, access to a personalised visual timetable. All classes through the school have a visual timetable displayed in class for all pupils to promote inclusion.</p> <p>In Key Stage 2 we offer Socially Speaking groups designed to develop social and communication skills for children with associated difficulties.</p>
<p>Strategies to support the development of literacy (reading /writing).</p>	<p>School operates a whole school approach to developing early reading skills. Read, Write, Inc. is an evidence based programme designed to get children to read, write and spell quickly. It can also be used as a catch up programme for children aged 8 and 9. Children up to the age of 9 years old are grouped by ability and taught in small groups for Read, Write, Inc. in order to give them the phonics skills they need to develop literacy skills.</p> <p>Bridgewater Park Primary also delivers evidence based intervention programmes aimed at narrowing the gaps with their peers. These interventions are bespoke to the individual needs of the child and are reviewed regularly with parents. This is completed through precision teaching, PAT, IDL and extra phonics groups.</p>
<p>Strategies to support the development of numeracy.</p>	<p>In mathematics, the school is following the teaching principals of Core Power. This is supported by White Rose Maths alongside the principals of</p>

	<p>Singapore Maths which all staff have been trained on, including support staff.</p> <p>Identified children will be provided with pre-teach sessions and some children will benefit from catch up sessions.</p> <p>The school has also invested in Numicon, a proven intervention strategy to help support children with SEN. This is used in all classes.</p> <p>Some support staff are also trained in First Class @ Number intervention for children in Key stage 1.</p> <p>Bridgewater Park Primary also delivers evidence based intervention programmes aimed at narrowing the gaps with their peers. These interventions are bespoke to the individual needs of the child and are reviewed regularly with parents.</p>
<p>How we adapt the curriculum and modify teaching approaches to meet SEND and facilitate access.</p>	<p>Underpinning ALL our provision in school is the graduated approach cycle of:</p> <p>Assess:</p> <p>This initial assessment described above will inform any SEN plan and will be updated on a regular basis. Teachers are expected to report on pupil progress on a half termly basis. In addition to this, children with SEN may receive additional assessments around their area of need formally twice a year and informally during intervention sessions on a more regular basis.</p> <p>Plan:</p> <p>When a child is placed on the SEN register, an SEN support plan which details adjustments to teaching and learning, what is additional to or different from that usually provided for children at our school is created. This plan will also provide short term outcomes that we expect the child to achieve as a result of the provision. This plan will be person centred and it is our expectation that it will be written by the class teacher together with parents and carers and the child. The SENCO may also be involved in this process. In addition to this, teacher planning will also detail adjustments to teaching and learning that is tailored and differentiated to meet the needs of every pupil. Provision maps are also created for SEN children which include the baseline assessment for an intervention and an exit assessment to track progress. These are updated half-termly if required.</p> <p>Class teachers maintain responsibility for every child</p>

	<p>in their class. Class teachers have high expectations for every child including those with SEN. As part of their SEN provision it may be that a child needs to receive additional support or intervention which is not normally afforded to all children. In this instance, details of any intervention or specialist provision provided outside of the main classroom teaching will be provided to the class teacher and opportunities made for specialist teachers and teaching assistants to share this information with the class teacher. It is the expectation that the same or similar strategies are deployed in their mainstream class teaching so that techniques become familiar for children. Any teacher or teaching assistant working with a child on SEN support will be aware of advice and strategies provided by professionals so that they can be deployed consistently.</p>
<p>How we track and assess pupil progress towards the outcomes that we have targeted for pupils (including how we involve pupils and their parents/carers). What we do when provision or interventions need to be extended or increased and how we evaluate their overall effectiveness.</p>	<p>Children have a unique insight into their strengths and difficulties. They will be encouraged to contribute to the assessment of their needs, review of their provision and planning any future changes. Person centred planning approaches are central to the school's ethos for supporting children with SEN to achieve good outcomes.</p> <p>Involving parents and learners in the dialogue is central to our approach and we do this through regular reviews such as termly SEN support plan reviews.</p> <p>The school monitors the attainment and progress of all learners carefully and seeks to address any areas of weakness quickly. The progress of all vulnerable groups will be discussed at half termly pupil progress meetings with the Principal. The impact of interventions is monitored by the SENCO and actions taken as required to ensure continued progress. Staff use a tracking system called B Squared which supports monitoring but also allows targets to be set that are tailored to closing the gaps for each individual child.</p>
<p>Strategies/support to develop independent learning.</p>	<p>All children at Bridgewater Park are being taught how to become independent learners. For children with SEN this is further supported through strategies such as:-</p> <ul style="list-style-type: none"> <li>• individual timetables and checklists</li> <li>• “chunking” of activities</li> <li>• individual success criteria</li> </ul>

	<ul style="list-style-type: none"> <li>• visual prompts</li> <li>• pastoral support plan targets</li> </ul>
Support /supervision at unstructured times of the day including personal care arrangements.	<p>Bridgewater Park Primary aims to provide a safe, nurturing learning environment for all children and promote positive mental health and wellbeing. We have a positive approach to behaviour management with a clear Behaviour Policy that is followed by children and staff.</p> <p>We take every opportunity to include pupils socially during break and lunch. Anti-bullying ambassadors promote positive relationships and seek to include pupils who may be isolated from their peers.</p> <p>All children in school have access to a PSHCE curriculum to support their personal, social and emotional wellbeing. There are weekly PSHCE and collective worship sessions.</p> <p>For children who require additional support during un-structured times, pastoral support plans are put in place.</p>
Extended school provision available; before and after school, holidays etc.	Bridgewater Park Primary School operates a free breakfast club available to all children in Reception to Year 6. At the same time various after-school clubs run which are able to be accessed by all children.
How will we support pupils to be included in activities outside the classroom (including school trips) working alongside their peers who do not have SEND?	<p>We aim for all children to be included on school trips and residential stays. We will work with parents to ensure that any necessary adaptations have been made and ensure that trips are successful.</p> <p>A risk assessment is carried out before hand to ensure that everyone's health and safety will not be compromised. In the unlikely event that an activity is unsafe for a child to take part for whatever reason, an alternative activity, which will cover the same curriculum area will be provided in school.</p>
Strategies used to reduce anxiety, prevent bullying, promote emotional wellbeing and develop self-esteem including mentoring.	<p>Bridgewater Park Primary aims to provide a safe, nurturing learning environment for all children and promote positive mental health and wellbeing. We have a positive approach to behaviour management with a clear Behaviour Policy that is followed by children and staff.</p> <p>In addition to this a range of strategies are used as and when appropriate including:</p> <ul style="list-style-type: none"> <li>• Home school communication book</li> </ul>

	<ul style="list-style-type: none"> <li>• Pastoral support plans</li> <li>• Named key workers</li> <li>• Nurture groups</li> <li>• Anger management groups</li> </ul> <p>The school has invested in the Boxall Profile which allows us to track improvements in social and emotional development and provide suitable intervention for them. This will be included in the child's SEN support plan and shared with parents.</p> <p>The school will also refer a child to CAMHS if it is necessary to meet the needs of a child with social, emotional and mental health needs.</p>
<p>What strategies can be put in place to support behaviour management?</p>	<p>Bridgewater Park Primary aims to provide a safe, nurturing learning environment for all children and promote positive mental health and wellbeing. We have a positive approach to behaviour management with a clear Behaviour Policy that is followed by children and staff. When required for certain children, the SENCO and teacher may create an individual behaviour plan that relates to the school policy however allows time for the child to regulate their emotions. These are discussed with the parents/carers as well as the child.</p> <p>The school will also seek the advice and recommendations from the Attendance and Behaviour Service and Positive Behaviour Support Team to provide further individual advice and support.</p>
<p>How we support pupils in their transition into our school and when they leave us <i>and in preparing for adulthood.</i></p>	<p>For children entering Reception class or Nursery we carry out transition and home visits.</p> <p>For children moving to secondary we support children by working closely with transition co-ordinators to ensure a smooth move. Where necessary we will access support to provide additional transition support for vulnerable children.</p> <p>We closely monitor children's destination data and ensure that the receiving school has all of the information they require to support the child in their new setting.</p>
<p>Access to strategies, resources, programmes, therapists to support occupational therapy/</p>	<p>The school follows the advice and recommendations from external agencies and</p>

<p>physiotherapy needs and medical needs.</p>	<p>ensures that strategies are acted upon by any adult working with the child.</p> <p>Bridgewater Park Primary aims to refer a child early to Woodview CDC if there are any concerns about their sensory needs or physical development. We also seek specialist advice from the specialist teachers from within the local authority to ensure that necessary adaptations have been made. The school is experienced in following sensory diets provided by Occupational Therapy Service and any care plan activities provided.</p> <p>In school we also have a specialist occupational therapy programme available, which has activities and resources aimed at developing fine and gross motor skills. These activities can be delivered on a 1:1 basis, in small groups or as part of whole class teaching activities.</p> <p>We also use checklists to measure the impact of sensory distractions for children who may struggle in this area. Steps could be put in place to minimise sensory distractions and ensure that a child is not overloaded. It also provides an opportunity to measure the impact of any intervention we put in place.</p> <p>In the last year, a Sensory Room has been opened at the school for the use of children with a member of staff. This will be used during intervention times and throughout the day when needed.</p> <p>For children with medical needs close liaison with medical staff takes place as required. Staff training takes place for managing any particular needs as required.</p>									
<p>Extra support for parents and carers and pupils offered by the school/how parents are involved in their child's education.</p>	<p>Involving parents and learners in the dialogue is central to our approach and we do this through:</p> <table border="1" data-bbox="758 1635 1444 2065"> <thead> <tr> <th>Action/Event</th> <th>Who's involved</th> <th>Frequency</th> </tr> </thead> <tbody> <tr> <td>SEN support plan review</td> <td>Parents and carers of children who are SEN support, class teacher, SENCO may be involved</td> <td>Six times a year* please note that some of these reviews may coincide with termly parents evenings but a longer appointment will be provided to allow for a full discussion</td> </tr> <tr> <td>Parents evenings</td> <td>Parents and carers of all children</td> <td>Three times a year, although from Y1 and below, parents will be invited into school on a rolling cycle to help support the children in</td> </tr> </tbody> </table>	Action/Event	Who's involved	Frequency	SEN support plan review	Parents and carers of children who are SEN support, class teacher, SENCO may be involved	Six times a year* please note that some of these reviews may coincide with termly parents evenings but a longer appointment will be provided to allow for a full discussion	Parents evenings	Parents and carers of all children	Three times a year, although from Y1 and below, parents will be invited into school on a rolling cycle to help support the children in

<p>How additional funding for SEND is used within the school with individual pupils.</p>	<p>Bridgewater Park Primary is committed to promoting and developing parental engagement and independent advocacy for parents. This includes making parents aware of support services that are available through the Local Offer and helping parents to access SEND Partnership.</p> <p>For children with allocated additional funding, Teaching Assistants are deployed to support them in line with the Local Authority allocated support hours. In addition to this, children in Year 1, Reception and Nursery are supported by an additional teaching assistant who is deployed to support small groups and ensure that all children can access the curriculum.</p> <p>Bridgewater Park Primary continues to develop a specialist model where teaching assistants develop their own area of expertise to support children with particular areas of need. These teaching assistants will then be allocated to provide 1:1 and small group teaching support for children with SEN.</p> <p>In addition to this staff are deployed to provide small group English support through Read Write Inc. Groups will be delivered by trained staff following this evidenced based phonics and literacy programme.</p>												
<p>Arrangements for supporting pupils who are looked after by the local authority and have SEND. Including examples of how pupil premium is used within the school.</p>	<p>When a child is looked after by the local authority, they will be supported with a personal education plan (PEP) which outlines the provision and support allocated to them. This will be reviewed with the child, their carers and the social worker annually. The school may apply for additional pupil premium funding to ensure that they receive the right support necessary. In addition, we attend and contribute to an annual looked after review.</p> <p>The school monitors the attainment and progress of all learners carefully and seeks to address any areas of weakness quickly. This includes monitoring children who are looked after by the local authority. The progress of all vulnerable groups will be discussed at half termly pupil progress meetings with the Principal.</p>												

<b>SENCO name/contact:</b> Mrs Genna Platt – Genna.Platt@bridgewaterpark.halton.sch.uk	
<b>Headteacher name/contact:</b> Miss Karen Murphy – head.bridgewaterpark@halton.gov.uk	
<b>ANNUAL REVIEW 2018-19</b>	
<b>Completed by:</b> Genna Platt	<b>Date:</b> 12 <sup>th</sup> July 2018

**SEND Broad Areas of Need**

<b>Communication and Interaction</b>	
<b>6.28</b>	Children and young people with speech, language and communication needs (SLCN) have difficulty in communicating with others. This may be because they have difficulty saying what they want to, understanding what is being said to them or they do not understand or use social rules of communication. The profile for every child with SLCN is different and their needs may change over time. They may have difficulty with one, some or all of the different aspects of speech, language or social communication at different times of their lives.
<b>6.29</b>	Children and young people with ASD, including Asperger's Syndrome and Autism, are likely to have particular difficulties with social interaction. They may also experience difficulties with language, communication and imagination, which can impact on how they relate to others.

<b>Cognition and Learning</b>	
<b>6.30</b>	Support for learning difficulties may be required when children and young people learn at a slower pace than their peers, even with appropriate differentiation. Learning difficulties cover a wide range of needs, including moderate learning difficulties (MLD), severe learning difficulties (SLD), where children are likely to need support in all areas of the curriculum and associated difficulties with mobility and communication, through to profound and multiple learning difficulties (PMLD), where children are likely to have severe and complex learning difficulties as well as a physical disability or sensory impairment.
<b>6.31</b>	Specific learning difficulties (SpLD), affect one or more specific aspects of learning. This encompasses a range of conditions such as dyslexia, dyscalculia and dyspraxia.

<b>Social, Emotional and Mental Health difficulties</b>	
<b>6.32</b>	Children and young people may experience a wide range of social and emotional difficulties which manifest themselves in many ways. These may include becoming withdrawn or isolated, as well as displaying challenging, disruptive or disturbing behaviour. These behaviours may reflect underlying mental health difficulties such as anxiety or depression, self-harming, substance misuse, eating disorders or physical symptoms that are medically unexplained. Other children and young people may have disorders such as attention deficit disorder, attention deficit hyperactive disorder or attachment disorder.

<b>Sensory and/or Physical Needs</b>	
<b>6.34</b>	Some children and young people require special educational provision because they have a disability which prevents or hinders them from making use of the educational facilities generally provided. These difficulties can be age related and may fluctuate over time. Many children and young people with vision impairment (VI), hearing impairment (HI) or a multi-sensory impairment (MSI) will require specialist support and/or equipment to access their learning, or habilitation support. Children and young people with an MSI have a combination of vision and hearing difficulties. Information on how to provide services for deafblind children and young people is available through the Social Care for Deafblind Children and Adults guidance published by the Department of Health (see the References section under Chapter 6 for a link).
<b>6.35</b>	Some children and young people with a physical disability (PD) require additional ongoing support and equipment to access all the opportunities available to their peers.
