<p><b>Range of Provision and inclusion information:</b></p>	
<p>How we identify special educational learning needs as a school and how we seek the views, opinions and voice of pupils and their parents in planning to meet them.</p>	<ul style="list-style-type: none"> <li>• When pupils have identified SEND before they start here, we work with the people who already know them and use the information they already have available to identify what their SEN will be in our school setting.</li> <li>• If you tell us you think your child has SEN we will discuss this with you and investigate. We will share with you what we find out and agree next steps with you as to how we can all help your child. If your child does not appear to making the same level of progress as other children of their age, we will undertake assessment in school and by using other professionals to identify possible barriers to their learning. Parents and carers will be involved at all stages.</li> <li>• We are child and family centred so you will be involved in all decision making about your child's support.</li> </ul>
<p>What extra support we bring in to help us meet SEND: specialist services, external expertise and how we work together. For</p>	<ul style="list-style-type: none"> <li>• We have support from specialist teachers and support staff for accessing the curriculum and</li> </ul>

<p>example health, social care, local authority support services and voluntary sector organisations.</p>	<p>additional input for specific needs e.g. speech, language and communication, visual and hearing impairment, behaviour related difficulties, autism spectrum conditions, moderate learning difficulties.</p> <ul style="list-style-type: none"> <li>• We get support from local authority services and local special schools who provide outreach.</li> <li>• We get support from occupational therapy and physiotherapy for pupils who require this input and specific resources.</li> <li>• We get support from specialist and professional agencies to train our staff; advise on strategies and programmes and we will make referrals for assessment if we believe they need a period of therapy.</li> </ul> <p>We will hold multi-professional meetings with parents and the pupil where necessary to review the child's progress. At these meetings the following types of discussions will take place: what will be put into place in school to make teaching and learning more effective; agree targets for pupils achievement; agree how we will work together and what we will each do; agree a review date to explore how well the pupil is doing and whether we are making a difference and what we will do next. This information is recorded to ensure accountability.</p>
<p>How we provide access to a supportive environment; ICT facilities/equipment/resources/facilities etc.</p>	<ul style="list-style-type: none"> <li>• Specialist equipment to support the curriculum as necessary and specified by SEN Services</li> <li>• Individual work spaces</li> <li>• Access to ICT resources such as iPad, iPod, Mac PC, laptop, visualiser, cameras and mini recorders.</li> <li>• Prompt and reminder cards for organisation. <p>Extra support for parents and carers and pupils offered by the school/how parents are involved in their child's education.</p>	<ul style="list-style-type: none"> <li>• Pupils' views are very important to us and we listen to the pupil voice.</li> <li>• For parents we offer a range of family learning opportunities such as Family Numeracy and Family Literacy and we work in conjunction with Halton Family Learning team to deliver these.</li> <li>• We hold regular coffee mornings in school.</li> <li>• The school will signpost appropriate groups and organisations to you which are relevant for your families needs.</li> <li>• The school works closely with the local authority's team and we support families through a CAF. SEND partnerships leaflets are given to parents of SEN pupils and SEND partnership contact details are passed on to the parents during any meetings with the SENCO.</li> </ul>
<p>How additional funding for SEND is used within the school with individual pupils.</p>	<ul style="list-style-type: none"> <li>• Schools receive funding for all pupils including those with special educational needs and disabilities: they meet the needs of pupils through this (including additional support and equipment). The school also supplements this funding through careful use of the main school budget.</li> <li>• If the assessment of a pupil's needs identifies something that is significantly different to what is usually available, then additional, enhanced funding is applied for and allocated. This may involve 1:1 or small group support from staff or it may be spent on specific resources and programmes, as necessary.</li> </ul>
<p>Arrangements for supporting pupils who are looked after by the local authority and have SEND. Including examples of how pupil premium is used within the school.</p>	<ul style="list-style-type: none"> <li>• Enhanced music tuition and cultural experiences.</li> <li>• Specific interventions- Paired reading, Nurture Group, Silver Seals and Lego therapy, Precision Teaching, use of relevant apps to engage and develop learning.</li> <li>• Additional staffing to enable in-class support and intervention, and to provide additional emotional support for all pupils whenever they need it.</li> </ul>

**ANNUAL REVIEW 2019-2020**

**Completed by:** Lisa Binks

**Date:** 17<sup>th</sup> September 2019

**SEND Broad Areas of Need****Communication and Interaction**

<b>6.28</b>	Children and young people with speech, language and communication needs (SLCN) have difficulty in communicating with others. This may be because they have difficulty saying what they want to, understanding what is being said to them or they do not understand or use social rules of communication. The profile for every child with SLCN is different and their needs may change over time. They may have difficulty with one, some or all of the different aspects of speech, language or social communication at different times of their lives.
<b>6.29</b>	Children and young people with ASD, including Asperger's Syndrome and Autism, are likely to have particular difficulties with social interaction. They may also experience difficulties with language, communication and imagination, which can impact on how they relate to others.

**Cognition and Learning**

<b>6.30</b>	Support for learning difficulties may be required when children and young people learn at a slower pace than their peers, even with appropriate differentiation. Learning difficulties cover a wide range of needs, including moderate learning difficulties (MLD), severe learning difficulties (SLD), where children are likely to need support in all areas of the curriculum and associated difficulties with mobility and communication, through to profound and multiple learning difficulties (PMLD), where children are likely to have severe and complex learning difficulties as well as a physical disability or sensory impairment.
<b>6.31</b>	Specific learning difficulties (SpLD), affect one or more specific aspects of learning. This encompasses a range of conditions such as dyslexia, dyscalculia and dyspraxia.

**Social, Emotional and Mental Health difficulties**

<b>6.32</b>	Children and young people may experience a wide range of social and emotional difficulties which manifest themselves in many ways. These may include becoming withdrawn or isolated, as well as displaying challenging, disruptive or disturbing behaviour. These behaviours may reflect underlying mental health difficulties such as anxiety or depression, self-harming, substance misuse, eating disorders or physical symptoms that are medically unexplained. Other children and young people may have disorders such as attention deficit disorder, attention deficit hyperactive disorder or attachment disorder.
-------------	---

**Sensory and/or Physical Needs**

<b>6.34</b>	Some children and young people require special educational provision because they have a disability which prevents or hinders them from making use of the educational facilities generally provided. These difficulties can be age related and may fluctuate over time. Many children and young people with vision impairment (VI), hearing impairment (HI) or a multi-sensory impairment (MSI) will require specialist support and/or equipment to access their learning, or habilitation support. Children and young people with an MSI have a combination of vision and hearing difficulties. Information on how to provide services for deafblind children and young people is available through the Social Care for Deafblind Children and Adults guidance published by the Department of Health (see the References section under Chapter 6 for a link).
<b>6.35</b>	Some children and young people with a physical disability (PD) require additional ongoing support and equipment to access all the opportunities available to their peers.
