What is the Health and Care Sector all about?

Whether you're treating poorly patients or conducting life-saving research, working in the health and care sector means you'll be making a real difference to the lives of others.

As well as doctors, nurses, and other care-giving roles, there are plenty of opportunities for IT specialists, software designers or even dance therapists!

**Do you enjoy meeting and helping others - often using practical skills?
Are you able to care for others?
Do you have an interest in science?
Perhaps you want a career that involves big experiments or developing life-saving treatments?
If any of these sound like you, you might be interested in a career in the health or social care sector.**

More than
£1 billion
of recent investment being made into local infrastructure across the NHS, universities and industries within Liverpool City Region

Will there be opportunities and where are they?

Did you know... Over the last 7 years, employment in the sector has grown by **13.3%** in England and **6.6%** in the Liverpool City Region.

The Health and Care sector employs approximately 110,000 people in the area, with Liverpool being home to more specialist hospitals and health centres than any other UK city outside of London. As the demand on the NHS grows in years to come, more vacancies will need to be filled.

With hundreds of health and medical companies based here, the area is considered to be one of the UK's top three clusters of biomedical activity.
