# Corona Virus

At the moment, there is a bug going round. It's called Corona Virus.

Corona Virus can make people poorly. It can feel like a bad cold.
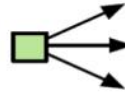

Until the bug has gone away, we need to try to keep everyone healthy.

To try to stop   the bug   spreading,   there will be:

- No work. Work is closed.

- Everybody is at home.

- Your friends are at home.

- Staff are at home.

- Nobody is there.
